

Warning!

Watch out for domain renewal scams that appear from time to time –

They usually offer a 2 year renewal for a domain name that “looks” like your name, e.g.: www.myholidaypark.com (not .com.au) for only \$249.00. You may even be offered a free iPod!

To prevent un-necessary payments, know your hosting company and know their staff.

Email Address:

Attach your email to your domain name rather than an ISP (Internet Service Provider). Eg: If you have myholidaypark@optus.net.au what happens if Optus sells out to Telstra? You get a letter saying that in 30 days you will have to change your email address to myholidaypark@telstra.com.au

Meanwhile you have just purchased \$10,000 of new brochures and stationery which will have the wrong email address on them.

You own your domain name so attach your email to your domain name and you will never have this problem. You are in control of your asset. The result would be something like holiday@mycaravanpark.com.au
